Steps to locate entry level positions:

1- Go to this site: <https://att.taleo.net/careersection/10161/moresearch.ftl>

2- In the search fields enter for:

a) Location: The city, or state, or both of which you would like to work.

b) Position: You can leave this blank to see all positions

OR

You can enter one of the positions above to see if they are hiring for those positions now.

c) Hit SEARCH!

3- A list of current openings will open. Browse through to find a position of interest. Click open an announcement to find out more about requirements for that specific position. If your city doesn't appear on the list then it means there are no job openings in your city. Also there are sorting options you can use to more easily view the results at the top of the page.

4- To help you decide whether or not to apply, take into consideration:

Job type- The number of hours you will work

Experience- What previous knowledge you are expected to have

Expectations-What you should be able to do for the employer

5- When you find one you are interested in and qualify for, follow the instructions to apply.
